SCOPE AND CONTENT NOTE

The Francis Tursi Papers consist of the string music collection of Francis Tursi, Professor of Viola at the Eastman School of Music from 1949-87. All of the music contains Tursi's performance markings, including fingerings and dynamics. This makes the collection of special interest to violists, particularly Tursi's former students, who may wish to know his approach to the technical problems of a given piece. Most of the music is for viola; there is also a smaller collection of violin music. Scores with attached program notes, letters, or other documents are grouped together at the end of the collection.

ARRANGEMENT

The collection is arranged in the original order used by Tursi, grouped roughly first by genre, then alphabetically by composer. The materials are listed in standard bibliographic format with descriptive information regarding scoring, autographs, parts included and/or missing, or parts photocopied following the work's title or, where applicable, editors.
