TABLE OF CONTENTS

Description of Collection	4
Description of Series	5
Inventory	6
Series 1: Individual Imprints	6
Series 2: Song Collections and Instruction Books	198

DESCRIPTION OF COLLECTION

Location: C3B 6,5–6,7

Extent: 7.5 linear feet

Provenance

This collection was the gift of Robert Schwartz and was received by Sibley Music Library in 1983. The accession note prepared by Sibley Music Library at the time lists an address for Mr. Schwartz in Manhattan's Upper East Side; no other information about the donor's identity has been preserved.

Scope and Content

This collection consists of American popular sheet music, including over 3,400 individual imprints of popular songs as well as several dozen song folios or volumes and instruction books or texts for various instruments (e.g., piano, organ, guitar). The items bear copyrights dating from 1905–1979, and popular songs from the 1950s through 1970s are especially well represented. Nearly all of the items are in mint or near-mint condition.

Restrictions

While there are no restrictions on accessing the collection, the provisions of the United States Copyright Law (1976) and its revisions apply in each instance of reproduction and performance. For all items published in 1923 or later, obtaining copyright clearance is a necessary prerequisite before requests for reproductions will be granted.

Associations

The Sibley Music Library holds several collections of popular sheet music. The largest and most prominent collection is the U.S. Sheet Music Collection, which contains more than 100,000 pieces of sheet music published in the United States dating from the late 18th century to the early 20th century. This extensive collection is complemented and enriched by several smaller and more focused collections of sheet music, all of which are listed and described on the SML's website (<https://www.esm.rochester.edu/sibley/specialcollections/findingaids/popular/>). Of these, the individual collections of James W. Phillips, Charlotte Stafford, and Hazel Munger Burke Sheet Music Collection bear mentioning, as they each contain several hundred imprints of popular sheet music, both vocal and instrumental, primarily dating from the early- to mid-20th century.

DESCRIPTION OF SERIES

When the collection was received by Sibley Music Library, a detailed inventory was prepared for the collection, identifying some 3,482 individual pieces of sheet music, 58 song folios, and five instruction or textbooks. This original arrangement has been largely preserved here, albeit with song folios/collections and instruction books grouped together as Series 2. Following the organization in the original inventory, the items have been arranged alphabetically by title, and only surnames are given for composers and lyricists.

Series 1: Printed Music

Series 2: Song Collections and Instruction Books

INVENTORY
